

CITY OF MONTEREY CONGRATULATES PEGASUS RISK ON SUPERIOR SERVICE

Proactive Account Management and Excellent Audit Results Cited

Modesto, California-Pegasus Risk Management (www.pegasusrisk.com) is a full service third party administration company that offers workers' compensation and liability claims management services. In addition, Pegasus has created a complete vertically integrated solution through its parent company, The Simon Companies.

"As a self-insured public agency for Workers' Compensation, we have personally experienced many great years of service. Their immediate response to our questions and requests, timely recoveries from our excess insurance carriers, and great audit results (to name a few services), have made the "Simon Companies" a pleasure to partner with," said Michele Maloney, Benefits Manager, The City of Monterey.

"We take a great deal of pride in the work we do at Pegasus, and are pleased that our clients appreciate the hard work that goes into creating and managing a successful workers' compensation program," said Jeff Simon, President/CEO of Pegasus Risk Management.
