

PEGASUS RISK MANAGEMENT CELEBRATES 20 YEARS OF SUCCESSFULLY  
SERVING THE CALIFORNIA WORKERS' COMPENSATION CLAIMS  
ADMINISTRATION MARKETS

Long Term Commitments to Employees and Clients Attributed to its Success

**Modesto, California**-Pegasus Risk Management ([www.pegasusrisk.com](http://www.pegasusrisk.com)) is pleased to announce its 20<sup>th</sup> year of consistently providing superior claims outcomes for its California third party administration clients.

Pegasus Risk Management is a full service third party administration company that offers workers compensation and liability claims management services. In addition, Pegasus has created a complete vertically integrated solution through its parent company, The Simon Companies.

“We believe that our success is directly attributed to the long term commitment we have made to both our employees as well as our clients”, said Jeff Simon, President CEO of Pegasus Risk Management. We believe these qualities are particularly valuable at a time when I see many of my competitors being acquired by bigger TPAs, leaving their clients to deal with a TPA vendor they did not select.”

In particular our clients enjoy being able to have direct access to decision makers, and to have a TPA that has the flexibility to meet the particular needs of any program. This, combined with the transparent way we do business is the cornerstone of our corporate culture.
